Individual and Group Instruction

True enjoyment of any sport begins with a solid understanding of the fundamentals — and fishing is no exception. At Westport Outfitters, our professional instructors combine their passion for the sport of fishing with the insights and skills they have developed over the years to help each student build the foundation that leads to a lifetime of enjoyment. Our instructors know that there is more to fishing than the cast. While they are well versed in a variety of fly and spin-casting techniques, they also take the time to explain the ‘forgotten fundamentals’ such as line and rod weights.

Are you a more advanced angler? Our instructors also offer personalized guidance and instructions to help you sharpen your skills and perfect your techniques – all for the pure enjoyment of the sport.

A message from
Eric Johnson, owner and proprietor

Dear customer,

As a lifelong boating and fishing enthusiast in New England and beyond, it was my great privilege to take ownership of

Eric (pictured left) with trophy brown trout.

Westport Outfitters in 2005. I have embarked on this voyage with a single goal in mind: providing you and your family with the most enjoyable fishing and boating experience imaginable. It seems to me that the New England boating and fishing season always ends too soon. Therefore, it is my personal goal to help each of my customers live every day to the fullest, enjoying every precious moment of the season.

While you are in the area, please take a moment to stop in and introduce yourself. Or, if you have questions about the products or services we offer (or think we should offer), please call or e-mail me. Your satisfaction is important to me, personally.

Thank you for your business during the past 20 years. I look forward to serving you for many years to come.
